## VITA SMART.FIRE SYSTEM PREMIUM PORCELAIN OVEN

## BENEFITS

### TOUCH & FIRE!

Select a pre-installed program  
and start firing right away!

**FREE WITH CAD/CAM  
PACKAGE PURCHASE!\***

**\$5,800.95**

SMART.FIRE BUNDLE  
Includes Furnace, Control Pad & Pump!

**1. Intuitive operation**

**2. Convenient use**

**3. Reliable function**

**TOUCH  
&  
FIRE**

Chairside firing unit

Control unit

Integrated  
accessory set

### What?

- VITA SMART.FIRE is a firing unit developed specifically for dental practices for the crystallization, glaze, stain and corrective firing of all common chairside materials.

### What for?

- The firing unit is controlled using a touch control unit. Optimally, customized material-specific programs are already pre-installed for simple firing.

### With what?

- The VITA SMART.FIRE SYSTEM contains the firing unit, the control unit and an integrated accessory set

### Intuitive

- Intuitive use - material selection and program start in one step
- Organized menu navigation with self-explanatory program symbols

### Convenient

- Pre-installed programs for all common chairside materials
- Convenient use, thanks to its space-saving construction

### Dependable

- Reliable function through long-lasting firing technology
- Durable housing with sealed surfaces

\*Free SMART.FIRE Bundle with  
qualifying CAD/CAM package

VITA has been offering top-quality material solutions for a wide range of indications since 1985.

Esthetic materials for single tooth restorations (inlays, onlays, full/partial crowns, veneers), high-strength milling blanks for substructures, as well as monolithic bridge restorations and solutions for implant-supported restorations. Laboratories benefit from numerous proven materials for CAD/CAM fabrication using milling/grinding systems and from leading, innovative materials.

## Order VITA CAD/CAM Materials

### SUPRINITY

- New generation of glass ceramic material. Glass ceramic is enriched with approximately 10% zirconia by weight, resulting in the world's first zirconia reinforced lithium silicate ceramic
- Material features a special fine-grained, homogeneous structure that provides excellent material quality and consistency, high load capacity and long-term reliability

\$133.95

5 pack

### ENAMIC

- Reinforced ceramic/polymer dual structure that mimics natural teeth
- Fast milling – in as little as 4-5 minutes; no post-firing is required
- Crack formation in ceramic is limited by the polymer network
- Thin, smooth margins for excellent edge stability

\$162.95

5 pack

### ENAMIC MULTICOLOR

- Six-layer shade gradient for natural play of light and lifelike vitality
- Natural tooth characteristics with fracture resistance and bond reliability
- Dual-network ceramic with unrivaled resiliency and force absorption
- Up to 50% faster processing

\$162.95

5 pack

### MARK II

- High quality feldspathic porcelain – the CAD/CAM gold standard
- 30+ years of documented success
- At full strength after milling
- Excellent aesthetics and translucency

\$119.95

5 pack

### TriLuxe Forte

- Outstanding esthetic properties, light transmission and fluorescence
- Four gradient layers for superior anterior esthetics
- At full strength after milling
- Made of same reliable material as VITABLOCS Mark II

\$184.95 -  
\$208.95

5 pack

### SMART.FIRE BUNDLE

Includes Furnace, Control Pad & Pump!

\$5,800.95

Enamic Polishing Set

\$82.95

## Anterior translucent zirconia

**DDcubeX<sup>2</sup>**  
cubic zirconia system

WHITE

MULTI  
LAYER

# Strong and beautiful

49% Translucency\*

\*measured by means of a spectrophotometer on 1 mm thick, polished samples

DD cubeX<sup>2</sup>® is a third generation zirconium dioxide (5Y-TZP) and creates the foundation for the "cubic zirconia system"® product family.

A hybrid cubic/tetragonal crystal structure is the key to outstanding aesthetics as known from lithium disilicate. At the same time and superior to glass ceramics, DD cubeX<sup>2</sup>® shows zirconia typical stability and fracture toughness.

In doing so, DD cubeX<sup>2</sup>® takes a unique position among the all-ceramic systems.

**DDcubeX<sup>2</sup>**<sup>®</sup>  
cubic zirconia system

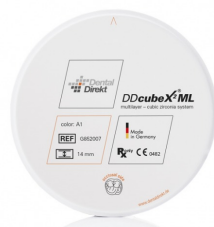

Dental Direkt is Germany's biggest manufacturer of zirconium oxide for dental use!

Whether high-strength, high translucent or super translucent, whether industrial precolored (monochrome and polychrome) or for coloring through liquid infiltration, Dental Direkt offers the right material concept for every workflow and every indication.

## Order Dental Direkt CAD/CAM Materials

### DD cube X² ML

DD cubeX²® – cubic zirconia system is a material revolution for technicians who love aesthetics and excellence.

14mm - \$199.95  
18mm - \$243.95  
22mm - \$288.50

### DD cube ONE ML

High strength cubic zirconia system" the blanks offer a flowing color gradation from cervical to incisal. The manufacture of aesthetic monoliths has never been this efficient before.

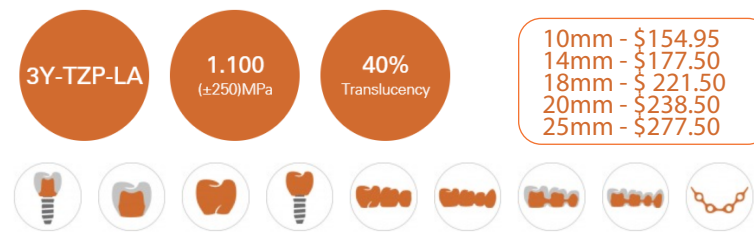

14mm - \$199.95  
18mm - \$243.95  
22mm - \$288.50

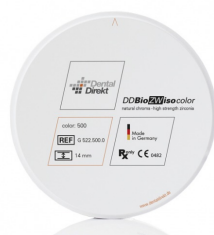

### DD Bio ZX² Color

DD Bio ZX² system combines the known positive properties of classic zircon with a significant increase in translucency. This material is perfect for all highly aesthetic restorations.

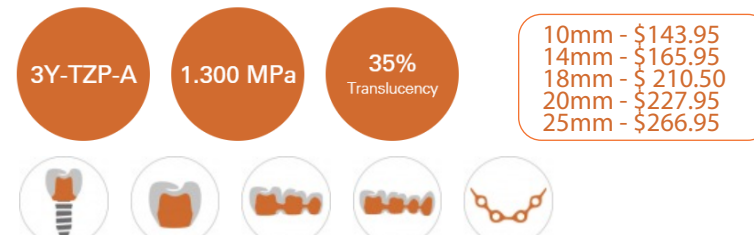

10mm - \$154.95  
14mm - \$177.50  
18mm - \$221.50  
20mm - \$238.50  
25mm - \$277.50

### DD Bio ZW iso color

Pre-colored DD Bio ZW iso color blanks combine the excellent properties of white blanks with the advantage of rapid processing. The ceramic veneering is optimally supported by the primers.

10mm - \$143.95  
14mm - \$165.95  
18mm - \$210.50  
20mm - \$227.95  
25mm - \$266.95

\$608.95

### Art Elements Set

Universally applicable with all DD Dentin-Liquids and with all DD Zirconia types. Art Elements set includes 10 Colors, 5 incisal colors, 1 vario and 40 applicators.

### Nature ZR

Nature ZR veneering ceramic is a visually and technically perfect veneering ceramic based on zirconium oxide frameworks (Y-TZP).

\$27.95

### ProShade Z

\$25.50 - \$66.50

Optimized for the individual painting technique (Stain & Glaze), minimal cut (cut back), as the framework color for full veneering or the combination of the techniques in one work.

## Order Dental Direkt CAD/CAM Materials

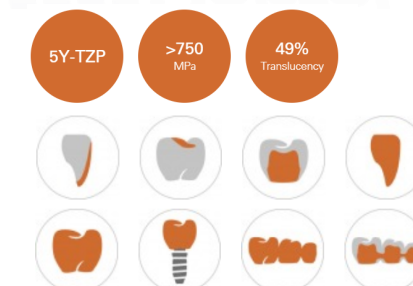

Dental Direkt is Germany's biggest manufacturer of zirconium oxide for dental use!

Dentists and dental technicians today bank upon the expertise of Germany's biggest manufacturer of zirconium oxide for dental use.

### DD cube X²

DD cubeX²® is a material revolution for technicians who love aesthetics and excellence. Zirconia was never like that. Highly biocompatible material with outstanding transparency.

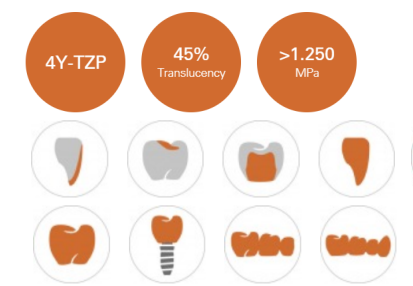

10mm - \$165.95  
12mm - \$188.50  
14mm - \$199.50  
16mm - \$221.50  
18mm - \$243.95  
20mm - \$255.95  
25mm - \$288.95

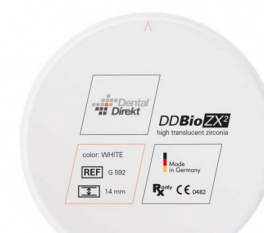

### DD cube ONE

High strength cubic zirconia system" the blanks offer a flowing color gradation from cervical to incisal. The manufacture of aesthetic monoliths has never been this efficient before.

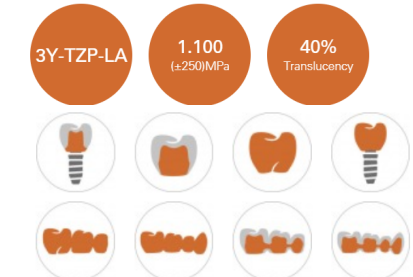

10mm - \$165.95  
14mm - \$199.50  
18mm - \$243.95  
20mm - \$255.50  
25mm - \$288.50

### DD Bio ZX²

DD Bio ZX² system combines the known positive properties of classic zircon with a significant increase in translucency. This material is perfect for all highly aesthetic restorations.

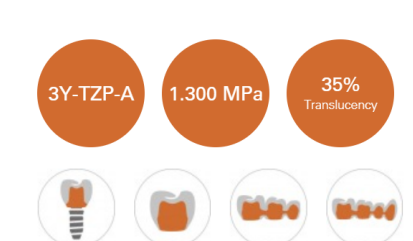

10mm - \$132.50  
12mm - \$154.95  
14mm - \$165.95  
16mm - \$188.95  
18mm - \$210.50  
20mm - \$221.95  
25mm - \$255.50

### DD Bio ZW iso

These blanks are distinguished by their enhanced strength and long-term hydrothermal stability. An absolutely homogenous structure is achieved through a specially developed production process.

10mm - \$121.50  
12mm - \$143.95  
14mm - \$154.95  
16mm - \$177.50  
18mm - \$199.95  
20mm - \$210.50  
25mm - \$243.95

### ProShade Set

Ideal for DD Bio Z, DD Bio ZX² and DD cube ONE®

\$611.50

### Panther Starter Kit

\$233.95

Panther Starter Kit Consists of polishers in four different geometries, with which you are equipped for every indication and situation.

## CUSTOM ABUTMENT & CROWN MILLING PACKAGE - IOS

**SQ**  
SMART

### 4 AXIS Milling Machine

- Titanium Crown/Abutment (single)
- Zirconia Crown/Abutment (single)
- PMMA Crown/Abutment (up to 3)
- Nano Ceramic Crown/Abutment (up to 3)

### 3 YR. WARRANTY

\*1 year by manufacturer  
&  
Additional 2 years when  
Materials are purchased  
through Young's Dental

CUREBOX DUAL

FOCUS 4010 PORCELAIN OVEN

i500 Intraoral Scanner

### PACKAGE PRICE

**\$64,000** \*\$68,000 MSRP

- SQ SMART MILL
- MEDIT i500 INTRAORAL SCANNER
- SHENPAZ FOCUS 4010 OVEN WITH VACUUM PUMP
- HYPERDENT CAM SOFTWARE (CAM)
- CUREBOX DUAL
- STARTER KIT
  - STAIN & GLAZE
  - BLOCKS

- ALL ACCESSORIES INCLUDED

\*ENTIRE OFFICE TRAINING CAN BE PURCHASED SEPARATELY FOR \$3,000. CONTACT YOUR REP OR CALL FOR DETAILS!

## COMPLETE MILLING SOLUTION PACKAGE - DESKTOP SCANNER

**SQ**  
ULTIMATE

### 5 AXIS Milling Machine

- Titanium Crown/Abutment
- Zirconia Crown/Abutment
- PMMA Crown/Abutment
- Nano Ceramic Crown/Abutment
- Titanium Bar
- Chrome-Cobalt Bar
- Lithium Disilicate
- Nano Ceramic
- PMMA

## COMPLETE & ULTIMATE SOLUTION FOR ALL MILLING FABRICATIONS!

SHENPAZ SINTRA PLUS

FOCUS 4010 PORCELAIN OVEN

T500 MODEL SCANNER

### 3 YR. WARRANTY

\*1 year by manufacturer  
&  
Additional 2 years when  
Materials are purchased  
through Young's Dental

### PACKAGE PRICE

**\$105,999** \*\$113,999 MSRP

- SQ ULTIMATE MILL
- T500 DESKTOP SCANNER
- SHENPAZ FOCUS 4010 OVEN WITH VACUUM PUMP
- SHENPAZ SINTRA PLUS OVEN
- HYPERDENT CAM SOFTWARE (CAM)

**DINO** SOLUTION

## PREMIUM 3D PRINTER

ULTRACRAFT DS

\$14,995

Highest quality 3D printer designed for chairside production. DS comes with Ultra-Net printer management system, which also supports online service for receiving designed files from third-party design centers. Offering a one-stop experience of immediate diagnosis and treatment and immediate repair for digital dentistry.

DS is a desktop level 3D printer designed for chairside low volume production. The white, minimalist design with the 1080p touch screen makes the DS an art piece rather than a production machine. The combined post curing unit-PCU mini can draw power directly from DS, without the need for additional, external power source. User can easily control PCU mini and perform post curing through the user interface on DS. In addition, the DS comes with Ultra-Net printer management system, which supports receiving designed files from third-party design centers.

## KEY PARAMETERS

Printing Size : 144\*81\*110mm  
Resolution : 1920\*1080P  
Min. Pixel Accuracy : 75

WADE  
World Academy of Dental Education

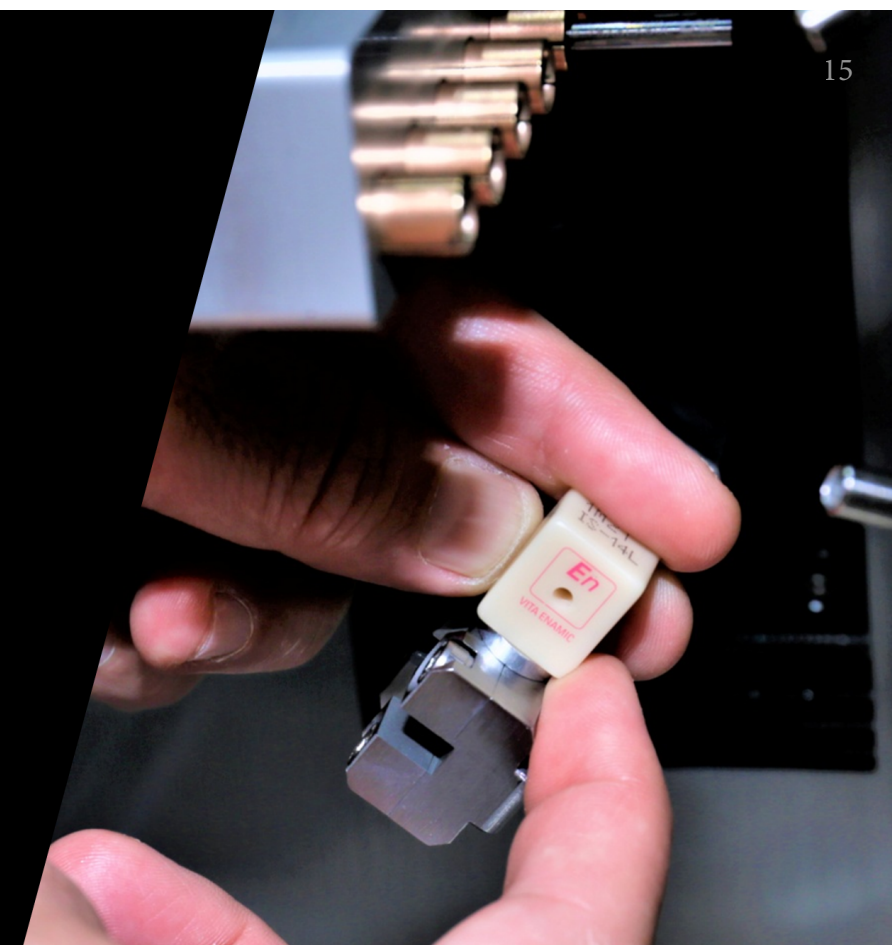

QUICK INTRODUCTION  
TO THE WORLD OF  
CAD/CAM

DINO CAD/CAM Specialists

| Course Speakers

In Association with

DINO SOLUTION

## COURSE OVERVIEW

This half day course is designed to help doctors to quickly understand the basic concept of complete in-office digital workflow along with science, history and clinical data. All participants will not only given a verbal presentation, but will also have the opportunity to watch the entire workflow in a small group environment with live Q&A sessions.

## Intraoral Scanning

- Fundamentals of intraoral scanning
- Learn how to use IOS and advanced scanning strategies

## Designing (CAD)

- Fundamentals of Computer-Aided Designing
- Learn how to use EXOCAD to design crowns

## Q&amp;A

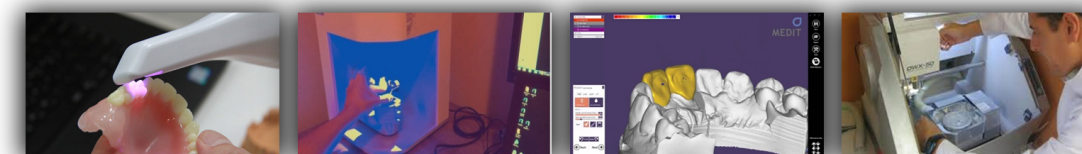

- Questions and closing notes

## Desktop Scanning

- Fundamentals of desktop scanning
- Learn how to use desktop scanner for model scanning

## Milling (CAM)

- Fundamentals of Computer-Aided Milling
- Learn how to use milling machines for various final restorations
